

§ 2524.2

entryman who has been or may be directly or indirectly hindered or prevented from making improvements on or from reclaiming the lands embraced in his entry, by reason of the fact that such lands have been embraced within the exterior limits of any withdrawal under the Reclamation Act of June 17, 1902 (32 Stat. 388; 43 U.S.C. 372 *et seq.*) will be excused during the continuance of such hindrance from complying with the provisions of the desert-land laws.

(b) *Persons excused from compliance with the desert-land laws.* Section 5 of the Act of June 27, 1906, applies only to persons who have been, directly or indirectly, delayed or prevented, by the creation of any reclamation project, or by any withdrawal of public lands under the reclamation law, from improving or reclaiming the lands covered by their entries.

(c) *Statement required to warrant excuse.* No entryman will be excused under this act from a compliance with all of the requirements of the desert-land law until he has filed in the proper office for the district in which his lands are situated a statement showing in detail all of the facts upon which he claims the right to be excused. This statement must show when the hindrance began, the nature, character, and extent of the same, and it must be corroborated by two disinterested persons, who can testify from their own personal knowledge.

§ 2524.2 Annual proof.

(a) *Extension of time.* Inasmuch as entrymen are allowed 1 year after entry in which to submit the first annual proof of expenditures for the purpose of improving and reclaiming the land entered by them, the privileges of the Act of June 27, 1906, are not necessary in connection with annual proofs until the expiration of the years in which such proofs are due. Therefore, if at the time that annual proof is due it can not be made, on account of hindrance or delay occasioned by a withdrawal of the land for the purpose indicated in the act, the applicant will file his statement explaining the delay. As a rule, however, annual proofs may be made, notwithstanding the withdrawal of the land, because expenditures for various kinds of improve-

43 CFR Ch. II (10-1-03 Edition)

ments are allowed as satisfactory annual proofs. Therefore an extension of time for making annual proof will not be granted unless it is made clearly to appear that the entryman has been delayed or prevented by the withdrawal from making the required improvements; and, unless he has been so hindered or prevented from making the required improvements, no application for extension of time for making final proof will be granted until after all the yearly proofs have been made.

(b) *When application for extension of time should be filed.* An entryman will not need to invoke the privileges of the Act of June 27, 1906, in connection with final proof until such final proof is due, and if at that time he is unable to make the final proof of reclamation and cultivation, as required by law, and such inability is due, directly or indirectly, to the withdrawal of the land on account of a reclamation project, the statement explaining the hindrance and delay should be filed in order that the entryman may be excused for such failure.

§ 2524.3 Time extended to make final proof.

When the time for submitting final proof has arrived and the entryman is unable, by reason of the withdrawal of the land, to make such proof, upon proper showing, he will be excused and the time during which it is shown that he has been hindered or delayed on account of the withdrawal of the land will not be computed in determining the time within which final proof must be made.

§ 2524.4 Beginning of period for compliance with the law.

If, after investigation the irrigation project has been or may be abandoned by the Government, the time for compliance with the law by the entryman shall begin to run from the date of notice of such abandonment of the project and of the restoration to the public domain of the lands which had been withdrawn in connection with the project. If, however, the reclamation project is carried to completion by the Government and a water supply has been made available for the land embraced in such desert-land entry, the

§ 2524.8

entryman must, if he depends on the Government's project for his water supply, comply with all provisions of the reclamation law, and must under the Act of June 6, 1930 (46 Stat. 502; 43 U.S.C. 448), relinquish or assign in not less than 2 years after notice all the land embraced in his entry in excess of one farm unit, and upon making final proof and complying with the regulations of the Department applicable to the remainder of the irrigable land of the project and with the terms of payment prescribed in the reclamation law, he shall be entitled to patent as to such retained farm unit, and final water-right certificate containing lien as provided for by the Act of August 9, 1912 (37 Stat. 265; 43 U.S.C. 541-546), Act of August 26, 1912 (37 Stat. 610; 43 U.S.C. 547), and the Act of February 15, 1917 (39 Stat. 920; 43 U.S.C. 541), or to patent without a lien if provision therefor shall have been made as provided for by the Act of May 15, 1922 (42 Stat. 541; 43 U.S.C. 511-513).

§ 2524.5 Assignment of desert-land entries in whole or in part.

(a) *Act of July 24, 1912.* Under the Act of July 24, 1912 (37 Stat. 200; 43 U.S.C. 449), desert-land entries covering lands within the exterior limits of a Government reclamation project may be assigned in whole or in part, even though water-right application has been filed for the land in connection with the Government reclamation project, or application for an extension of time in which to submit proof on the entry has been submitted, under the Act of June 27, 1906 (34 Stat. 520; 43 U.S.C. 448), as amended by the Act of June 6, 1930 (46 Stat. 502; 43 U.S.C. 448), requiring reduction of the area of the entry to one farm unit.

(b) *Amendment of farm-unit plat after partial assignment.* Where it is desired to assign part of a desert-land entry which has been designated as a farm unit, application for the amendment of the farm-unit plat should be filed with the official in charge of the project, as in the case of assignments of homestead entries. (See § 2515.5 (a)(3) to (5).) The same disposition of amendatory diagrams will be made and the same procedure followed as provided for assignments of homestead entries.

§ 2524.6 Desert-land entryman may proceed independently of Government irrigation.

Special attention is called to the fact that nothing contained in the Act of June 27, 1906 (34 Stat. 520; 43 U.S.C. 448), shall be construed to mean that a desert-land entryman who owns a water right and reclaims the land embraced in his entry must accept the conditions of the reclamation law, but he may proceed independently of the Government's plan of irrigation and acquire title to the land embraced in his desert-land entry by means of his own system of irrigation.

§ 2524.7 Disposal of lands in excess of 160 acres.

Desert-land entrymen within exterior boundaries of a reclamation project who expect to secure water from the Government must relinquish or assign all of the lands embraced in their entries in excess of one farm unit in not less than 2 years after notice through the land office, must reclaim one-half of the irrigable area covered by their water right in the same manner as private owners of land irrigated under a reclamation project, and also comply with the regulations of the Department applicable to the remainder of the irrigable land of the project.

§ 2524.8 Cancellation of entries for nonpayment of water-right charges.

All homestead and desert-land entrymen holding land under the reclamation law must, in addition to paying the water-right charges, reclaim the land as required by the reclamation law. Homestead entrymen must reside upon, cultivate, and improve the lands embraced in their entries for not less than the period required by the homestead laws. Desert-land entrymen must comply with the provisions of the desert-land laws as amended by the reclamation law. Failure to make payment of any water-right charges due for more than 1 year, will render the entry subject to cancellation and the money paid subject to forfeiture, whether water-right application has been made or not.
